10.13.2 About Cognitive Science

Cognitive Science is the multidisciplinary study of cognition in humans and machinessoal is to understand the principles of intelligence and thought with the hope that this will lead to a better understanding of the mind and of learning, and welltowndent of intelligent deces that constructely extend human abilities.

An Interfaculty Program in Cognite Science (54 credits) isfefed by the following departments:

Computer Science (COMP) (Science) Linguistics (LING) (Arts) Philosophy (PHIL) (Arts) Psychology (PSYC) (Science)

Cognitive Science Committee Members:

Brendan Gillon (Linguistics)

Kristine Onishi (Psychology)

Joelle Pineau@omputer Science

David RagsdaleNeuroscience

Dirk Schlimm (Philosophy)

Please note: New students are required to attend an information session held at the Aurgust. Please consult the cognetiscience website in early August for the date and location.

10.13.3 Bachelor of Arts and Science (B.A. & Sc.) - Honours Cognitive Science (60 credits)

The Honours Cognitie Science, which is restricted to students in the B.A. & Sc., istansion of the Interaculty program and terms students an opportunity to undertake a research project in close association with professors in their Antenian Science focus areas. Prior to selecting the Honours program, students should meet with the Interdisciplinary Programier and relew the B.A. & Sc. academic requirements for Honours and First Class Honours, which can also be found under "Versity Regulations and Resources." "Graduation." and "Graduation Honours."

To receive an Honours degree, students are required to avoice minimum verall program GR of 3.3 at graduation, and attain a grade of B+ (3.3) or better in COGS 444. Students must complete both the 60-credit Honours program and secaption concentration or a minor in the collision of Arts or of Science.

Note: B.A. & Sc. students who takinterfaculty programs, including the Honours in CognetiScience, must taket least 21 credits Arts and 21 credits

The Minor Concentration Statistics is well only in a non-pandable ersion, that is, one that cannot be maded into the Major Concentration Mathematics.

The Minor Concentration Statistics may be taken conjunction with a major concentration in some other discipline under Appliforthe Multi-track System, or together with the Major Concentration Mathematics and a minor concentration (which must be in some other discipline than Mathematics) und option C.

Under option C, it is not possible to combine the Minor Concentration Statistics and the Minor Concentration Mathematics. Students wishing to do this should instead takthe Major Concentration Mathematics under option **B** (thajor concentrations) and select **gea**number of statistics complementaries.
